

Illinois Prairie Weavers Guild - 2013 Challenge

“Sewing with Handwovens”

We've all been inspired by seeing the beautiful pieces that guild members and teachers have shared with us. Now we all have a reason to dip our toes into the waters of working with handwoven fabrics.

Remember, part of the point of a challenge is to try something new, something that may be slightly outside your weaving comfort zone!

Present your project at the December 2013 holiday meeting, tell us what you ABC's were:

- A:** Purpose of the item
- B:** Learning goal of the project
- C:** Personal challenge

P.S. Everything in the challenge is completely optional! It is meant only to inspire and challenge you in your personal journey as a weaver. So accept whatever parts of the challenge you wish and feel free to ignore the rest!

Good luck and happy weaving!!
